The ‘**Child Sexual Abuse Prevention – What we all need to know**’ campaign

1. Who we are

[Stop it Now! Wales](#) is a child sexual abuse prevention project which works across the country to ensure that parents, carers and professionals are as best placed as they can be to protect children from sexual abuse and exploitation.

We believe that child sexual abuse is preventable and that all adults have a role to play in protecting children from sexual harm. This can be best achieved when adults are alert to the signs of child sexual abuse, including the behaviour that someone who might pose a risk to children can display, and knowing where they can seek help and advice.

We work closely with local authorities, LSCBs, police, the Welsh Government, the voluntary sector, families and communities.

Stop it Now! Wales is run by the child protection charity [The Lucy Faithfull Foundation](#).

2. What it’s all about

Our campaign – ‘**Child Sexual Abuse Prevention – What we all need to know**’ – is currently running across Wales.

It’s designed to ensure parents, carers, and professionals working with children and families are as best placed as they can be to protect children from sexual abuse and exploitation.

You may have seen our campaign on social media, heard about it in the media or from a professional, or you may have attended one of our awareness sessions.

Along with raising awareness of child sexual abuse, including where the risks lie, it aims to help adults:

- recognise the signs of child sexual abuse in children including verbal and non-verbal indicators
- recognise the warning signs an adult who has harmful intentions may display
- take preventative measures and report concerns before a disclosure is made, acknowledging that most children do not disclose abuse
- respond effectively and appropriately when a disclosure is made, including reporting to the relevant authorities
- develop and implement family safety plans.

3. Why your support is invaluable

It is only in recent years that we have come to appreciate the true scale of the sexual abuse of children.

The secrecy surrounding such abuse is evident in the fact that 1 in 3 children who are sexually abused by an adult do not tell anyone. Of those who do tell, most tell a family member or friend. Hardly any come to the attention of police, social services or health professionals.

Key stats

- 1 in 3 children sexually abused by an adult do not tell anyone
- 4 out of 5 children abused by a peer told no one else at the time
- Only 1 in 8 sexually abused children are known to the authorities
- 90% of sexually abused children are abused by someone they know
- Around a third of sexual abuse is committed by other children and young people
- Disabled children are over 3 times more likely to be abused than non-disabled children
- There is no stereotypical abuser - abusers come from all walks of life – and from all socioeconomic backgrounds

Most victims of child sexual abuse don't talk about it and can't ask for help. So adults have to.

By understanding the risks, and knowing what to do if we have a concern – we can prevent abuse from happening in the first place.

Our campaign aims to provide adults with the information we all need to put in place preventative measures, recognise the warning signs of child sexual abuse - and to build the confidence to do something about it.

The scale and secrecy which surrounds child sexual abuse means we all have a part to play in tackling it. And the more support our campaign has, the more people will be informed and protective.

4. How you can support this campaign

Please help us to share the campaign's key messages which will be disseminated via the following channels:

4.1 Social Media

We will be using our social media channels throughout the campaign. It would be great if you felt able to share these posts and show your organisation's support for the campaign via your own social media channels.

We have developed social media messages (Twitter and Facebook) to promote the campaign from October onwards.

The campaign hashtags are #childsexualabuse #stopitnowwales

We will be posting from the following channels:

- Twitter: [@StopitNowWales](https://twitter.com/StopitNowWales)
- Facebook: <https://www.facebook.com/stopitnowukandireland/>

The social media messaging aims to highlight some of the key issues around child sexual abuse and signpost people towards information and resources.

We also want to demonstrate the commitment across Wales to working together to tackle this problem.

Please share/retweet these posts and, where you feel appropriate, lend your support to the campaign.

You can also create your own content. If there is something in particular you'd like us to retweet or support on social media, please contact the Stop it Now! Wales team on: wales@stopitnow.org.uk.

The 'Child Sexual Abuse Prevention – What we all need to know' campaign

A new campaign is running across Wales to raise awareness of child sexual abuse – and what we can all do to prevent it.

Run by Stop it Now! Wales, **The 'Child Sexual Abuse Prevention – What we all need to know' campaign** features awareness raising sessions for parents, carers and professionals – along with resources for each. Crucial messages are also being promoted through social media.

It is only in recent years that we have come to appreciate the true scale of the sexual abuse of children. The secrecy surrounding such abuse is evident in the fact that 1 in 3 children

who are sexually abused by an adult do not tell anyone. Of those who do tell, most tell a family member or friend. Hardly any come to the attention of police, social services or health professionals.
